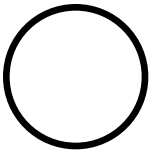
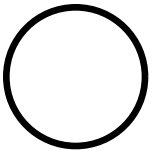
Roxie's Planet Facts

Read each fact, then colour in the planet!



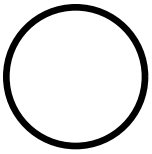
Mercury

The smallest planet, and the closest to the Sun.



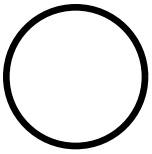
Venus

The hottest planet. Its thick clouds trap the heat!



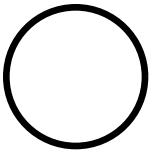
Earth

Our home, and the only planet we know with living things.



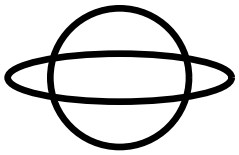
Mars

The Red Planet, covered in rusty red dust.



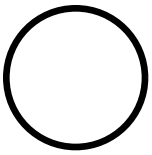
Jupiter

The biggest planet. Its Great Red Spot is a giant storm!



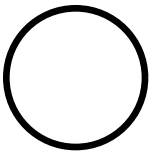
Saturn

Its beautiful rings are made of chunks of ice and rock.



Uranus

An ice giant that spins on its side.



Neptune

The other ice giant, deep blue and very windy.

And Pluto? It used to be called a planet, but now it is a dwarf planet!
